## HOLLOW CONE NOZZLE

**MB/48**  
**Brass Cone Nozzle**

**MB/48**  
**Brass Cone Nozzle**

**MB/49**  
**Vortex Body**

Spraying Pattern : Hollow Cone  
Type : Standard Cone Nozzle  
Feature/Usage : - Use together with vortex body  
- This nozzle are preferred where there is a complex mass of foliage or broad leaves to treat as spray is directed at different angle  
Material : Brass  
Orifices : 1/32", 3/64", 1/16", 5/64", 3/32", 7/64"  
Thread : 22G

**MB/49**  
**Vortex Body**

Type : MB/49 (A, B, C, D)  
Feature/Usage : Use together with MB/48 at difference orifice for difference flow rate and spraying angle  
Material : Brass

**MB/48A**  
**Adjustable Cone Nozzle**

**MB/48A/1**

**MB/48A/2R**

**MB/48A/3**

**Parts of MB/48A**

Spraying Pattern : Hollow Cone  
Type : Adjustable Cone Nozzle  
Feature/Usage : - Can be adjusted to get a suitable spray angle  
- This nozzle are preferred where there is a complex mass of foliage or broad leaves to treat as spray is directed at different angle  
Material : Brass  
Orifices : 1/32", 3/64", 1/16", 5/64", 3/32", 7/64"  
Thread : 22G

## HOLLOW CONE NOZZLE

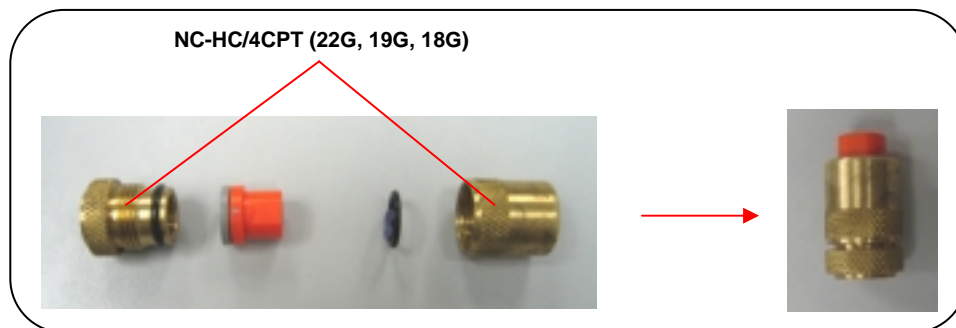

### Albuz

- Spraying Pattern : Hollow Cone  
Type : Standard Cone Nozzle  
Feature/Usage : - Ideal for fungicides and insecticides treatment in the orchard and vegetable farm  
- Durable to high pressure (3 to 25 bar) without losing performances and jet precision due to its ceramic characteristic  
- Can be adapted to engine pump  
Material : POM and Ceramic  
Output Volume at 3 bar : White (0.21L/min), Purple (0.28L/min), Brown (0.38L/min), Yellow (0.57L/min), Orange (0.77L/min)  
Country Origin : France

\*\* Use **NC-HC/4CPT** adaptor to fix **Albuz** nozzle

Albuz fixed with Adaptor NC-HC/4CPT

- Type : Adaptor  
Feature/Usage : To fix Albuz nozzle to spraying lance at thread 18G, 19G and 22G  
Material : Brass  
Thread : 18G, 19G and 22G
